

**NORTH DAKOTA INDUSTRIAL COMMISSION (NDIC)**  
**CLASS II UNDERGROUND INJECTION CONTROL PROGRAM (1425)**  
**FY 2022 STATE MID-YEAR OVERSIGHT SUMMARY**  
**Performed Via Phone on May 4, 2022**

Participants:

Mark Bohrer, NDIC  
Ashleigh Day, NDIC  
Douglas Minter, EPA UIC, Section Chief  
Craig Boomgaard, EPA UIC, ND1425 Project officer  
Nathan Wiser, EPA ECAD, Environmental Scientist

Discussion Topics:

- EPA inquired about updates on the Mann Oil – McKenzie Federal 35-1 activities. NDIC was curious of the status of the well. EPA indicated Mann Oil needed to obtain an aquifer exemption (AE) to operate the well.
- EPA inquired on the status of the QAPP. It is currently being worked on.
- NDIC asked about grant amounts. EPA said they are not sure yet but estimate last year's amount and go a little higher because it's hard to change and likely NDIC will only get what was asked for.
